

# EOne Academy Course List

## Navigation

### JDE Foundations

- ERP History
- JD Edwards History
- Speaking JDE
- A Decade of JDE with Oracle
- How Does Oracle View the Future of the Cloud

### JDE Fundamentals

- Rules of JDE
- Account Structure
- JDE Environment
- Address Book
- User Defined Codes (UDCs)
- Processing Options
- Configure Next Numbers
- Interpret Errors
- Create New Application Version and Add to Menu

### JDE Navigation 9.2

- Menu Navigation
- Interface Features
- The Carousel
- Favorites
- Recent Reports

### JDE Navigation 9.2 – Contd.

- Work with Applications
- Customize the Grid
- Data Browser
- Work with Records
- Collaborate Tool
- Manage User Defined Objects
- Advanced Queries UDO
- Create Pages with Page Composer
- E1 Pages 9.2 UX: Create Direct Links with Page Composer
- E1 Pages 9.2 UX: Create Process Flows Using Designer Pane
- E1 Pages 9.2 UX: Create a UX Dynamic Page with Watchlists and Springboard
- Watchlists UDO
- Attach Media Objects
- CaféOne: Composite Application Framework UDO 9.2
- Pages UDO
- Export and Import Grid Data

### EnterpriseOne Net Change

- Net Change 9.1.3 Tools Overview
- Net Change 9.1.3 One View Enhancements

### EnterpriseOne Net Change – Contd.

- Net Change 9.1.5 Menu Navigation Overview
- Net Change 9.1.5 The Carousel
- Net Change 9.1.5 Favorites
- Net Change 9.1.5 Grid Enhancements
- What's New in 9.2

## User Defined Objects (UDOs)

### UDOs Navigation

- Menu Navigation
- Preferences
- Favorites
- Carousel
- Recent Reports
- Breadcrumbs
- Work with Application
- Work with Reports
- Export and Import Grid Data

### Work with UDO

- UDOs Overview
- Grid Customization
- Rename Grid Headers

## Work with UDO's – Contd.

- List View
- Form Personalization
- Form Extensions
- Rename Form, Row, and Report Exits
- Grid Summarization
- Advanced Queries
- Watchlists
- Composed Pages
- Composed Pages: Designer Pane
- Classic Pages
- CaféOne

## Manage UDOs

- Images
- Create E1 Search Groups
- Task Index Builds (Springboard)
- Manage Security for UDOs
- Manage UDOs with Web Object Management Workbench (OMW)
- Object Usage Tracker
- Orchestrator Overview

## UX One

- UX One Interface Overview
- Create UX One Roles
- The Page Composer
- Add Charts to a Composed Page
- Add a Designer Pane
- Add One View Reports to UX One Pages
- Add Watchlists to UX One Pages
- Add a Springboard to UX One Pages
- Add URLs to a Composed Page
- Add a Classic Page to a Composed Page
- Create CaféOne Layouts
- UDO Management

## UX One Roles

- Manage Roles and Pre-Built UX One Pages
- Assign Roles to Environments
- General Accounting Manager
- Accounts Payable Manager
- Accounts Receivable Manager
- Plant Manager
- Production Manager
- Asset Manager
- Customer Service Manager
- Inventory Control Manager
- Shipping Supervisor
- Payroll Manager

## Orchestrator Studio

### Get Started with the Orchestrator Studio

- Orchestrator – About this Course
- Orchestrator Overview
- Navigate the Orchestrator Studio Homepage
- Run Orchestrations Overview
- Design and Run Orchestrations
- Transformations – Map Orchestration Inputs
- Launch Orchestrations from a Composed Page
- Launch Orchestration from EnterpriseOne – Overview
- Launch Orchestrations from an Application

### Orchestrator Service Requests

- Service Requests Overview
- Create a Form Request with Process Recorder
- Create an Orchestration and Add a Form Request
- Create a Message Request
- Create an Orchestration and Add Components
- Create a Data Request
- Create Data Request with Aggregation
- Create a Watchlist Request
- Connector Requests Overview
- Create a Connection
- Create an FTP Connector Request
- Create an FTP Connector to Create Sales Orders from CSV
- Create a Connector Request
- Add a REST Connector to an Orchestration
- Create a Report Request
- Add a Report Request to an Orchestration
- Create a Custom Request

### Additional Orchestrator Step Components

- Attachments Overview
- Create and Manage Text Attachments
- Work with File Attachments
- Create Rules
- Cross Ref and Whitelists Overview
- Cross References
- Create a Whitelist Component
- Create Schedules

## Orchestrator Tools

- Tools Menu Overview
- Use the Scheduler
- Import/Export
- Error Handling of Orchestrations
- Orchestrator Monitor

## Orchestrator Notifications

- Notifications Overview
- Create a Simple Notification
- Create a Watchlist Notification
- Assign Notifications to Users

## Logic Extensions in the Orchestrator Studio

- Logic Extensions Overview
- Navigate the Logic Extension Page
- Create Data Structures and Variables
- Create Logic
- Test Logic Extensions

## Workflows in the Orchestrator Studio

- Workflows Overview
- Navigate Workflows
- Workflows Create Data Structures and Tasks
- Workflows – Configure Tasks
- Workflows – Task Menu
- Workflows – Transitions and Conditions

## Release 22 Enhancements

- Files as Orchestrations Input and Output
- Manage Report Output in Orchestrations
- Creating External Forms from EnterpriseOne Web Client
- Launch Orchestrations from Composed EnterpriseOne Page
- Form Extension Improvements

## Release 23 Enhancements

- Logic Extensions: Aggregation Support
- Data Set Processing for Logic Extensions
- Nested Logic Extension Assertions
- Map Inputs from a CSV File
- Call an Orchestration from a Workflow

## Release 23 Enhancements – Contd.

- Form Control Extensions
- File Selector for Form Extension PT1
- File Selector for Form Extension PT2
- Page Composer Enhancements

## Release 24 Enhancements

- Task Tracking
- Notifications Reminders

## Release 22

### Release 22 Enhancements Overview for Applications and Tools

- Release 22 Enhancements Overview for Applications and Tool

### Finance Applications Enhancements

- Finance Enhancements Overview
- Job Cost Enhancements Overview

### Distribution Enhancements

- Distribution Enhancements Overview
- Procurement Enhancements Overview
- Sales Order Enhancements Overview
- Transportation Enhancements Overview
- Warehousing Enhancements Overview

### Manufacturing Enhancements

- Manufacturing Enhancements Overview
- Copy Item Costs to Multiple Branch Plants
- Default Current Date when Copying BOM or Routing Requirements Planning Summary and Conso
- Visual BOM and Where Used Diagram

### Location Updates Overview

- Localization Updates Overview

### CAM Enhancements Overview

- CAM Enhancements Overview

## Digital Transformation Enhancements

- Digital Transformation Enhancements Overview
- Orchestrator Enhancements Summary
- Logic Extensions Enhancements Overview
- Workflows Enhancements Overview
- Files as Orchestration Input and Output
- Manage Report Output in Orchestrations

### User Experience Enhancements

- User Experience Enhancements Overview
- Creating External Forms from EnterpriseOne Web Client
- Launch Orchestrations from Composed EnterpriseOne Page
- Form Extension Improvements

### Cloud Enhancements

- Cloud Enhancements Overview

### Platform Enhancements

- Platform Enhancements Overview

### System Automation Enhancements

- System Automation Enhancements Overview

## Release 23

### Release 23 Enhancements Overview for Applications and Tools

- Release 23 Enhancements Overview for Applications and Tools

### Finance Applications Enhancements

- Finance Enhancements Overview

### Distribution Enhancements Overview

- Distribution Enhancements Overview
- Inventory Enhancements Overview
- Procurement Enhancements Overview

## Distribution Enhancements Overview – Contd.

- Sales Order Enhancements Overview
- Transportation Enhancements Overview
- Warehousing Enhancements Overview

## Manufacturing Enhancements

- Manufacturing Enhancements Overview
- Kanban Status Override
- PDM Enhancements Overview
- Shop Floor Enhancements Overview
- WIP Revaluation Enhancements Overview

## CAM Enhancements Overview

- CAM Enhancements Overview

## Localization Updates Overview

- Localization Updates Overview

## Digital Transformation Enhancements

- Digital Transformation Enhancements Overview
- Logic Extension Enhancements Overview
- Logic Extensions: Aggregation Support
- Data Set Processing for Logic Extensions
- Nested Logic Extensions Assertions
- Map Inputs from a CSV File
- Call an Orchestration from a Workflow

### User Experience Enhancements

- Release 23 Tools User Experience Enhancements
- Form Control Extensions
- File Selector for Form Extension PT1
- File Selector for Form Extension PT2
- Page Composer Enhancements

### Cloud Enhancements Overview

- Cloud Enhancements Overview

## Platform Enhancements

### Overview

Platform Enhancements  
Overview

## System Automation Enhancements

System Automation  
Enhancements Overview

## Security Enhancements Overview

Security Enhancements  
Overview

## Release 24

### Release 24 Enhancements Overview for Applications and Tools

Release 24 Enhancements  
Overview for Applications  
and Tool

### Finance Enhancements

Finance Enhancements  
Overview

### Distribution Enhancements

Distribution Enhancements  
Overview

### Manufacturing Enhancements

Manufacturing Enhancements  
Overview

### Localization Updates Enhancements

Localization Enhancements  
Overview

### CAM Enhancements

CAM Enhancements Overview

### Grower Enhancements Overview

Grower Enhancements  
Overview

### Digital Transformation Enhancements

Digital Transformation  
Enhancements Overview  
Task Tracking  
Notifications Reminders

### Platform Enhancements

Platform Enhancements  
Overview

## System Automation Enhancements

System Automation  
Enhancements Overview

## Security Enhancements

Security Enhancements  
Overview

## Finance

### General Accounting

General Accounting Overview  
General Ledger AAls  
Journal Entries  
Intercompany Settlements  
Allocations  
Burdening  
Multicurrency  
Cash Forecasting  
Budgets  
Month End and Year End  
Processing  
Taxes  
Reconciliation  
Balance Restatement  
Reports and Inquiries  
General Ledger Integrity Reports  
Constants

### Accounts Payable

Procure to Pay Process  
Accounts Payable Overview  
Tables  
Constants  
Automatic Accounting  
Instructions (AAls)  
User Defined Code (UDC) Tables  
Next Numbers  
Supplier Master  
Payment Terms  
Voucher Entry Processing  
Overview  
Voucher Entry  
Voucher Match  
Automatic Payments  
Manual Payments  
AP Draft Processing  
Batch Voucher Process  
Voucher Match Automation  
Overview  
Voucher Match Automation  
Setup  
Voucher Match Automation  
Processing

## Accounts Payable – Contd.

Post Accounts Payable  
Transactions to the GL  
Approve and Post Accounts  
Payable Payments  
1099 Processing  
Reports and Inquiries  
Accounts Payable Integrity  
Reports

### Accounts Receivable

Accounts Receivable Overview  
Define Lines of Business  
Accounts Receivable Setup  
Set Up Accounts Receivable  
AAls  
Accounts Receivable UDCs  
Customer Master Records  
Invoice Entry  
Manual Receipts  
Automatic Receipts Processing  
Post Accounts Receivable  
Invoices  
Revise receipts to the GL  
Deduction Processing  
Netting  
Credit Reimbursements  
Credits and Collections  
Inquiries and Reports  
Accounts Receivable Integrity  
Reports

### Fixed Assets

Fixed Assets Overview  
System Foundation Setup  
System Setup  
Category Code Mapping  
Manage Asset Records  
Assets Split  
Track Asset Locations  
Assets Disposal  
User Defined Depreciation  
Asset Depreciation  
Journal Entries and  
Transactions  
Fixed Assets Reports  
Fixed Assets Integrity Reports  
Fixed Assets Transfer

### Job Cost

Job Cost Overview  
Change Management Overview  
Job Master Records  
Cost Code Structure and Chart  
Types  
Budgets  
Job Status Inquiry

## Job Cost – Contd.

- Job Progress Management
- Performance Based Labor
- Forecasting
- Profit Recognition
- Draws

## Organization Setup and Finance

- Organization Setup and Financial Overview
- Organization Setup
- Category Codes Setup
- Fiscal Date Patterns
- Bank Account Setup
- GL Class Codes

## Revenue Recognition

- Revenue Recognition Setup
- Revenue Recognition Process
- Additional Methods
- Revenue Recognition Functional Overview

## Contract and Service Billing

- Contract Billing Overview
- Contrast of Contract Billing and Service Billing
- Address Book, Customer Master, and Job Information
- Contracts
- Contract Billing Lines
- Contract Billing Workfile
- Contract Invoices Process
- Service Billing Overview
- Service Billing Setup
- Service Billing AAls
- Service Billing Additional Tables
- Service Billing Workfile Transactions Overview
- Service Billing Workfile Concept
- Recognize Revenue for Service Billing and Contract Billing
- Service Billing Invoices Process

## Advanced Cost Accounting

- Advanced Cost Accounting Overview
- Advanced Cost Accounting Setup
- Cost Analyzer
- Activity Based Costing Reporting

## Expense Management

- Expense Management Overview
- Expense Management Setup
- Group and Employee Profiles
- Expense Reports

## Expense Management - Contd.

- Auditing
- Reimbursement
- Reporting
- Mobile Expense Demo
- Mobile Expense Entry
- Mobile Expense Approvals

## Job Cost: Advanced Job Forecasting

- Advanced Job Forecasting Overview
- Formulas and Methods of Computation Setup
- Build a Job Forecast

## Lease Accounting

- Lease Accounting Overview
- Lease Accounting Setup
- Lease Accounting AAls Setup
- Lease Accounting Bill Code Setup
- Create an Asset Master Record in Lease Accounting
- Create a Unit Master Record in Lease Accounting
- Create and Review a Property Lease
- Create and Review a Non-Property Lease
- Enter Lease Clause Information
- Enter Manual Billing
- Review and Post Manual Billing
- Review and Post Manual Billing
- Create, Review, and Delete an Amortization Schedule
- Create and Review Commencement Journal Entries
- Create, Review, and Post End of Month Balance Sheet Journal Entries
- Delete or Void a Lease Accounting Batch
- Change a Lease Term
- Remeasure and Post a Lease
- Enter a Lease Termination
- Generate a Termination Entry
- Review Lease Accounting Inquiries
- Run Lease Accounting Reports
- Generate Recurring Billing

## Joint Venture Management

- Joint Venture Overview
- Address Book – Supplier Master
- Entering Joint Venture Master Records

## Joint Venture Management – Contd.

- Joint Venture Legal Entities
- Create and Approve Approval Lists
- Entering AAls for Joint Venture Management
- Distributable Accounts for Joint Ventures
- Create a Division of Interest Distribution Ledger Records
- Business Unit Attributes
- Account Groups
- Overhead Rules
- Set Operational Status
- Cash Call Processing
- Assign Draw Create Journal Entries Program
- Distribution Transaction Processing Reports
- Reviewing and Recalculating Overhead Amounts
- Process Overhead Calculation and Journal Entries
- Create Journal Entry and Voucher Transactions
- Joint Venture Distribution Documents
- Generate Distribution Ledgers Program
- Review Account Distribution Summary and Detail
- Joint Venture Inquiries
- Joint Venture Hierarchy

## Distribution

### Procurement

- Procurement Overview
- Order Activity Rules
- Procurement AAls
- Supplier Information
- Supplier Item
- Supplier Templates
- Line Types
- Requisitions
- Quotes
- Blanket Orders
- Enter Purchase Order
- Purchase Order Generator Approvals
- Purchase Order Printing
- Enter Subcontract Purchase Orders
- Change Order Process

## Procurement – Contd.

- Receiving, Reversals, and Receipt Routing
- Tolerance
- Landed Cost
- Process Rebates
- Voucher Match
- Reports and Inquiries
- Service Purchase Orders

## Sales Order Management

- Sales Order Management Overview
- Customer Information
- Order Activity Rules
- Sales Order Entry
- Templates
- Base Pricing
- Preferences
- Preferences with Advanced Pricing
- Direct Ship Orders
- Credit Orders
- Backorders
- Item Cross Reference
- Quote Order Process
- Order Holds
- Transfer Orders
- Return Material Authorizations (RMAs)
- Print Messages
- Pick Slips
- Ship Confirmations
- Create Shipping Documents
- Invoices
- Sales Update
- Commissions
- Sales Order Inquiries

## Advanced Pricing

- Advanced Pricing Overview
- Advanced Pricing Setup
- Base Pricing
- Complex Groups
- Price Adjustment Definition
- Price and Adjustment Detail Revisions
- Rounding Rules
- Free Goods
- Variable Price Adjustments
- Repricing
- Volume Incentive Adjustments
- Rebates
- Buying Structures
- Price Approval Process
- Accelerated Pricing Resolution Engine

## Advanced Pricing – Contd.

- Price Matrix
- Pricing Workbench
- Customer Price List

## Fulfillment

- Fulfillment Overview
- Setup and Activation
- Rule Setup
- Customer Billing Setup and Scoring
- Fulfillment Preferences
- Fulfillment Processing

## Distribution Setup

- Distribution Setup Overview
- Branch Plant Constants
- System Constants
- Inventory AAls
- Order Activity Rules for Sales and Purchasing
- Document Type Maintenance
- Line Types
- Category Codes
- Sales Order Holds
- Item Master
- Item Branch Plant
- Item Location Setup
- Speed Location Maintenance
- Item Cross Reference
- Non-Stock Item Master

## Inventory Management

- Inventory Management Overview
- Inventory Transactions
- Location Setup
- Cycle Count
- Item Cross Reference
- Lot Processing
- Segmented Items
- Cross Docking
- Kits
- Inventory ABC Analysis
- Dual Unit of Measure
- Print Messages
- Inventory Interoperability
- Perform Mass Updates
- Work Center
- Purge Inventory Records
- Inventory Inquiries
- Inventory Reports

## Transportation

- Transportation Overview
- Activating Transportation Management
- Transportation Setup

## Transportation – Contd.

- Transportation Rates Route Setup
- Intermodal Shipments
- Vehicle Setup
- Loads and Load Building – Part 1
- Shipping Document Process
- Work with Shipments
- Transportation End of Day Processes
- Transportation Inquiries
- Inbound Transportation
- Pooled Shipments
- Shipment Tracking

## Warehouse Management

- Warehouse Management Overview
- Activating Warehouse Management
- Create Locations
- Location Master Holds
- Item Master/Item Branch
- Order Groups
- Container and Carton Codes
- Request Inclusion Rules
- Location Profiles
- Location Dimension
- Location Characteristics
- Capacity Definition by Item/Group
- Speed Group Maintenance
- Item Profile Revisions
- Unit of Measure Definition by Item/Group
- Preference Master
- Putaway Movement Rules
- Picking Movement Rules
- Replenishment Movement Rules
- Putaway Requests
- Process Putaway Requests
- Putaway Confirmation
- Additional R46171 Processing
- Picking Requests
- Process Pick Requests
- Pick Confirmation
- Ship Confirmation
- Bulk Pick Requests
- Cross Docking Workbench
- Picking, Putaway and Replenishment Confirmation
- Fixed Location Replenishment Setup and Processing
- Random Putaway Requirements
- Processing Manual Replenishment
- Confirm Replenishments
- Manual Planner
- Advanced and Technical Ops
- Inquiries and Reports – Part 1

## Warehouse Management - Contd.

- Inquiries and Reports – Part 2
- License Plating Setup
- License Plate Daily Processing
- Pick, Pack, and Ship Overview
- Cartonization and Carton Reorganization
- UCC128 and ASN Processing Overview
- Shipment Pieces
- Shipment Tracking

## Manufacturing

### Shop Floor

- Shop Floor Control Overview
- Shop Floor Control Setup
- Work Order Processing
- Work Order Processing: Backflush and Super Backflush
- Work Order Processing: Lot Control and Serialized Work Orders
- Bill of Materials: Phantom Items
- Alternate Bills of Material and Routings
- Bill of Materials: Substitute Items
- Outside Operations
- Scheduling Inquiries
- Materials Inquiries Reports
- Process Operations
- Global Updates
- Mass Work Order Maintenance Demo
- Lean Manufacturing Overview
- Kanban Manufacturing Overview

### Product Data Management

- Product Data Management Overview
- Distribution and Manufacturing AAls (DMAAls)
- Bills of Material
- Bills of Material: Substitute Items
- Bills of Material: Batch Bills
- Bills of Material: Percent Bills
- Bills of Material: Phantom Items
- Bills of Material: Inquiries
- Routing Instructions
- Routing Instructions: Master Routings
- Routing Inquiries
- Outside Operations
- Lead Times Reports

## Product Data Management – Contd.

- Global Updates
- Process Manufacturing
- Engineering Overview

### Configurator

- Configurator Overview
- Item Master and Item Branch Setup for Configurator
- Configurator Constants
- Configured Item Segments
- Cross Segment Editing Rules
- Configuring CSERs and Dynamic Processing
- Assembly Inclusion Rules (AIRs): P and Q Rules
- AIRs: R Rules
- AIRs: X Rules
- AIRs: C Rules
- AIRs: H Rules
- Advanced AIRs: Tables
- Advanced AIRs: Smart Parts
- Advanced AIRs: External Field and Program
- Advanced AIRs: Other Transaction Types
- Advanced AIRs: Configured Components
- Configurator Sales Order Entry
- Other Configured Order Types
- Configurator Work Order Processing

### Manufacturing Overviews

- Manufacturing Overview
- Project Manufacturing Overview
- Types of Manufacturing Overview
- Plant Manager's Dashboard Overview
- Lean Manufacturing Overview
- Product Data Management Overview
- Forecasting Overview
- Resource and Capacity Planning Overview
- MPS and MRP Overview
- Configurator Overview
- Shop Floor and Work Orders Overview
- Demand Flow Manufacturing Overview
- Quality Management Overview

## Material Requirements Planning (MRP)

- MRP Overview
- Item Branch MRP Values Setup
- MRP System Setup
- Multi-Facility Planning Setup
- Program P3482/P3483 Processing Options Setup
- Submit MRP
- Planning Family Review Inquiry
- MRP Messages Inquiry
- Time Series Inquiry
- Pegging Inquiry
- Supply and Demand Inquiry
- MRP Reports

## Capacity Requirements Planning (CRP)

- CRP Overview
- CRO System Setup
- Capacity Setup
- Resource Setup
- RRP Generation and Inquiries
- CRP Generation and Processing Options
- CRP Inquiries
- CRP Reports

## Forecasting

- Forecasting Overview
- Basic Forecasting
- Planning Bill Forecast Setup
- Summary Forecasting Setup
- Summary Forecasting Generation and Force Changes
- Forecasting Consumption

## Manufacturing Accounting (MA)/Product Costing (PC)

- MA Overview
- MA Part 1: Work Order Completion
- MA Part 2: Run and Review Manufacturing Accounting
- MA Part 3: Settings for Restating Costs
- PC Overview
- PC Part 1: B/P Constants, Work Centers, BOMs, and Routings
- PC Part 2: Create Standard Costs
- PC Part 3: Periodic Rollup of Standard Costs

## Capital Asset Management (CAM): Equipment

- CAM Overview
- Equipment Overview
- Supplemental Data overview
- Coexistence with Fixed Assets
- Equipment Constants Setup
- Equipment Related AAls Setup
- Address Book Records
- Equipment Category Codes
- Equipment Master Information
- Equipment Inquiry
- Supplemental Data
- Equipment Specification Data

## CAM: Work Orders

- CAM Work Orders Overview
- CAM Costing Overview
- Crew Scheduling Overview
- Work Order Document Types
- Work Order Activity Rules Setup
- Work Order Parts and Labor Setup
- Work Order Entry
- Work Order Materials Issues and Charges
- Work Order Labor Tracking Setup
- Work Order Labor Entry
- Work Order Labor Transactions
- Work Order Inventory AAls Setup
- Work Order Costing
- Crew Scheduling Setup
- Crew Scheduling

## CAM: Preventative Maintenance

- Preventative Maintenance Overview
- Preventative Maintenance Schedule Setup
- Preventative Maintenance Generator
- Unscheduled Preventative Maintenance Work Orders
- Warranty Preventative Maintenance Work Orders
- Meter Readings Setup
- Meter Readings Entry
- Preventative Maintenance Schedule by Metered Units
- Rollover or Replace Meter

## Quality Management

- Quality Management Overview
- Set Up Tests
- Set Up Specifications
- Set Up Preferences
- Enter Test Results
- Review and Disposition Results

## Engineering Change Management

- Engineering Change Management Process Overview
- Engineering Change Management Setup
- Engineering Change Order (ECO) Process, Programs and Processing Options
- ECO Workbench
- Enter ECO, Routing Parts List and Related Items
- ECO Notification
- ECO Approval
- ECO Supplemental Data
- ECO Reports
- Engineering (BOM) Change Population

## Material Production Scheduling (MPS)

- Material Production Scheduling (MPS) Overview
- MPS System Setup Overview
- MPS System Setup
- Multi-facility Setup for MPS and DRP
- Run MPS and Review Output Overview
- RUN MPS
- MPS Planning Family Review
- Process MPS Detail Messages
- MPS Time Series Inquiry

## Distribution Requirements Planning (DRP)

- Distribution Requirements Planning (DRP) Overview
- DRP System Setup Overview
- DRP System Setup
- Run DRP and Review Output Overview
- Run DRP
- DRP Planning Family Review
- DRP Detail Messages Review
- DRP Time Series Inquiry

## Manufacturing Enhancements - Release 22

- Copy Item Costs to Multiple Branch Plants
- Default Current Date when Copying BOM or Routing
- Requirements Planning Summary and Conso
- Visual BOM and Where Used Diagram

## Manufacturing Enhancements - Release 23

- Kanban Status Override

## Human Capital Management

### Human Capital Management (HCM) Foundations

- Foundations Overview
- Implementation
- System Controls
- System Options
- Company Options
- Employee Setup: UDCs and Record Reservation
- Employee Setup: Category Codes and Future Data Reservations
- Employee History and Turnover
- Tax Information
- Corporate Tax IDs and Common Pay Master
- Employee Job Master
- Pay Types
- Deductions
- Benefits and Accruals
- Deduction, Benefit, and Accrual (DBA) General Accounting and Arrearage
- Additional DBA Information
- Tax Status for DBAs
- Employee Record Entry
- Auto Deposit and Supplemental Data
- DBA to Employee Association
- Employee Termination
- Employee Quick Hire

### Time and Labor

- Time and Labor Overview
- Processing Options and Master Business Functions
- AAls: Debit Labor Billing and Equipment
- AAls: Debit Burden and Premium Distribution
- AAls: Credit Cash-in-Bank Account Distribution
- AAls: Credit Liability Distribution
- AAls: Debit/Credit Accruals Clearing
- AAls: Summarization Rules
- Time Entry by Individual
- Speed Time Entry
- Time Entry Import and Copy Paste

## Benefits

- Benefits Overview
- Preparation is Key
- Building Blocks
- Putting it All Together
- Benefits Administration

## Payroll

- Payroll Processing Overview
- Pay Cycle Setup
- Payroll IDs
- Execution Control Parameters
- Pre-Payroll
- Pro Forma Journal Entries
- Payment Printing
- Reports Only Processing
- Final Update
- Interim Check Entry
- Online Employee History Inquiry
- Company Options
- Tax Information for Employers

## Technical

### Configurable Network Computing (CNC) Overviews

- CNC Overview
- CNC 101
- Understanding JDE Server Functions Overview
- Understanding Environments and Pathcodes Overview
- Understanding Data Sources Overview
- Understanding JDE Middleware Overview
- Understanding OMW Overview
- Understanding Server Manager Overview
- Understanding Basic Security Overview
- Understanding OCMs Overview
- Understanding Basic Object Types Overview
- Installation Roadmap
- Server Manager

## CNC

- CNC Overview
- CNC 101
- Server Functions
- Environments and Pathcodes
- Data Sources
- JDE Middleware Overview
- Object Management
- Workbench (OMW)

## CNC – Contd.

- Basic Package Activity
- Batch and Interactive Differences
- Job Queue Maintenance
- Server Manager
- Basic Security
- Object Configuration Management (OCMs)
- Tasks and Task Relationships
- Basic Object Types
- Printing
- Media Objects
- Installation Roadmap
- Pages for CNCs

### Universal Batch Engine (UBE) Development and BI Publisher

- UBE Development Overview and Data Dictionary Items
- Tables
- Business Views
- Group Report
- Business View Joins, Data Selection and Sequencing, and Level Breaks
- Event Rules Overview
- Event Rules: Variable Creation and Assignment
- Event Rules: Statements and Aggregates
- Event Rules: Additional System Functions
- Event Rules: Table IO
- Debugging
- Processing Options
- PDF vs CSV Output
- Business Functions
- Columnar and Tabular Reports
- BI Publisher Part 1: Overview and Process
- BI Publisher Part 2: Overview and Process Continued
- BI Publisher Part 3: 3<sup>rd</sup> Party Tool
- BI Publisher Part 4: Report Definition, Bursting, and Data Driven Delivery
- BI Publisher Part 5: Components Recap
- Default Printer
- Logos and Barcodes Explained
- 9.2 Development Tools Overview Guide

## Grower Management

### Grower Management Foundations Setup

- Grower Management Overview
- Foundation Setup
- Harvest Pattern Setup
- Grower Cost Center Defaults
- Owner Master Setup
- End Use Reservations
- Attributes of Crops
- Geographic Areas
- Material Type
- Varieties
- Styles
- Blend Constants, Wineries and Winery Constants Setup

### Farms and Blocks - Setup

- Farm Setup
- Blocks Setup
- Maturity Date Calculations and Mass Updates

### Harvests

- Harvest Overview
- Create a Harvest
- Harvest Information
- Update Harvests: Harvest Workbench
- Harvest Estimates
- Freeze Harvest Estimates
- View Supply and Demand
- Speed and Mass Updates

### Farming Operations Setup

- Farming Operations Setup
- Equipment Setup
- Resources Setup
- Consumables Setup
- Additives Setup
- Spray Master Setup
- Quality Tests
- Quality Tests: Result Name Setup
- Quality Tests: Conversions Setup
- Quality Test: Definition Setup
- Quality Test: Panel Setup
- Quality Test: Equipment Setup
- Quality Test: Consumables Setup

### Farming Operations

- Base Operations
- Configured Operations
- Create an Operation
- Configured Operations: Planning and Implementation
- Sample: Cultivate Operation
- Sample: Herbicide Operation

## Farming Operations

### Contd.

Sample: Farm QA Operation  
Sample: Schedule Harvest Op  
Operation Status

## Weigh Tag Operations

Weigh Tag Overview  
Enter Weigh Tags  
Close a Weigh Tag Operation  
with Speed Operation Update  
Close a Weigh Tag Operation  
Partial Receipts Control Flag  
Attributes on Weigh Tag  
Operations  
Interoperability and Weigh Tags

## Grower Management Costs

Grower Management Costs  
Overview  
Grower Costing Setup and  
Process  
Cost Component Setup  
Cost Group Setup  
Cost Group Setup  
General Ledger Category/Cost  
Group Cross Reference Setup  
Equipment Costs  
Resource Costs  
Consumables and Spray Costs  
Operational Costs  
Expense Spread  
Operations Accounting

## Grower Pricing and Payments

Grower Pricing and Payments  
Overview  
Prerequisites and Setup  
Contracts Overview  
Contract Header  
Contract Block  
Contract Harvest  
Maintain Contracts  
Contract Pricing  
Process Payments  
Complete the Harvest  
Mass Updates  
Final Settlement  
Pay on Proceeds

## One View Reporting

### One View Reporting (OVR) 9.2 Basics

One View Reporting 9.2  
Overview

## One View Reporting (OVR)

### 9.2 Basics – Contd.

One View Reporting Overview  
Webinar  
Access, Run, and Filter One  
View Reports  
Define Reports in the One View  
Manager  
Create One View Reports with a  
Standard Application  
Create One View Reports Using  
the Databrowser  
Launch One View Reports from  
Task IDs and E1 Pages  
Introduction to BI Publisher  
Formatting Components in  
BI Publisher for One View  
Reports  
Personalize One View  
Reports in BI Publisher  
Create Boiler Plate Templates in  
BI Publisher  
Create Pivot Tables and  
Calculations in One View  
Reports  
Create Drillback Links for a One  
View Reports  
Translate a One View Report into  
Another Language  
Promote a One View Report  
Create One View Reports with an  
OVR Application  
Formatting Components in BI  
Publisher for One View Reports

### One View Financial Statements

One View Financial Statement  
Overview
