Security Enhancements Overview

Release 24

Release 24 Enhancements Overview for Applications and Tools

Release 24 Enhancements Overview for Applications and Tool

Finance Enhancements

Finance Module Enhancements Overview

Distribution Enhancements

Distribution Application Enhancements Overview
Inventory – Item Location Hold Tutorial
Inventory – Calculated Safety Stock Tutorial
Procurement – Stand Alone Check Price Tutorial
Procurement – Requisition to Receipt Configured Page Overview
Sales – Order to Cash/Order to Fill E1 Page Overview
Sales – Order Preparation Day/Delivery Date Preference Based on Workday Calendar Tutorial

Manufacturing Enhancements

Manufacturing Enhancements Overview
Parts List Shortage Per WO Header Status Code Tutorial
Production Lot Serial Location Automation Tutorial

CAM Enhancements

CAM Enhancements Overview

CAM Enhancements – Contd.

Usability Enhancements for Resource Assignments in Tutorial

Payroll Enhancements

Payroll Enhancements Overview

Real Estate Enhancements

Real Estate Enhancements Overview

Grower Enhancements Overview

Grower Enhancements Overview
Weigh Tag Processing Usability Tutorial

Localization Updates Enhancements

Localization Enhancements Overview
Localization Updates – Brazil, Poland, US HCM
Localization Updates – Argentina, France, Peru

Digital Transformation Enhancements

Digital Transformation Enhancements Overview
Task Tracking
Notifications Reminders

Orchestrator Enhancements

Orchestrator Enhancements Overview
Reorder Date and Form Request Grid Outputs Tutorial
Reorder Orchestration Inputs Tutorial
EOne Pages and Form Extensions - Rename Inputs to Orchestrations Tutorial
Create a Table from a Data Set Tutorial
Create a Table from a Data Set – Notifications Tutorial

Notification Enhancements

Task Tracking Tutorial
Notification Reminders Tutorial

UDO Enhancements

UDOs Enhancements Overview

UDO Enhancements – Contd.

Ascending or Descending Thresholds on Watchlists Tutorial
Attachments Enhancements Tutorial

Workflows Enhancements

Workflows Enhancements Overview

System Automation Enhancements

System Automation Enhancements Overview
User Access and Application Usage Tracking Tutorial

Security Enhancements

Security Enhancements Overview

Platform Enhancements

Platform Enhancements Overview

Finance

General Accounting

General Accounting Overview
General Ledger AAIs
Journal Entries
Intercompany Settlements
Allocations
Burdening
Multicurrency
Cash Forecasting
Budgets
Month End and Year End Processing
Taxes
Reconciliation
Balance Restatement
Reports and Inquiries
General Ledger Integrity Reports

Supplier Master

Accounts Payable – Contd.

Payment Terms
Voucher Entry Processing Overview
Voucher Entry
Voucher Match
Automatic Payments
Manual Payments
AP Draft Processing
Batch Voucher Process
Voucher Match Automation Overview
Voucher Match Automation Setup
Voucher Match Automation Processing
Post Accounts Payable Transactions to the GL
Approve and Post Accounts Payable Payments
1099 Processing
Reports and Inquiries
Accounts Payable Integrity Reports

Accounts Receivable

Accounts Receivable Overview
Define Lines of Business
Accounts Receivable Setup
Set Up Accounts Receivable AAIs
Accounts Receivable UDCs
Customer Master Records
Invoice Entry
Manual Receipts
Automatic Receipts Processing
Post Accounts Receivable Invoices
Revise receipts to the GL
Deduction Processing
Netting
Credit Reimbursements
Credits and Collections
Inquiries and Reports
Accounts Receivable Integrity Reports

Fixed Assets

Fixed Assets Overview
System Foundation Setup
System Setup
Category Code Mapping
Manage Asset Records
Assets Split
Track Asset Locations

Fixed Assets – Contd.

Assets Disposal
User Defined Depreciation
Asset Depreciation
Journal Entries and Transactions
Fixed Assets Reports
Fixed Assets Integrity Reports
Fixed Assets Transfer

Job Cost

Job Cost Overview
Change Management Overview
Job Master Records
Cost Code Structure and Chart Types
Budgets
Job Status Inquiry
Job Progress Management
Performance Based Labor Forecasting
Profit Recognition
Draws

Organization Setup and Finance

Organization Setup and Financial Overview
Organization Setup
Category Codes Setup
Fiscal Date Patterns
Bank Account Setup
GL Class Codes

Revenue Recognition

Revenue Recognition Setup
Revenue Recognition Process
Additional Methods
Revenue Recognition Functional Overview

Contract and Service Billing

Contract Billing Overview
Contrast of Contract Billing and Service Billing
Address Book, Customer Master, and Job Information
Contracts
Contract Billing Lines
Contract Billing Workfile
Contract Invoices Process
Service Billing Overview
Service Billing Setup
Service Billing AAIs
Service Billing Additional Tables
Service Billing Workfile Transactions Overview
Service Billing Workfile Concept

Contract and Service Billing – Contd.

Recognize Revenue for Service Billing and Contract Billing
Service Billing Invoices Process

Advanced Cost Accounting

Advanced Cost Accounting Overview
Advanced Cost Accounting Setup
Cost Analyzer
Activity Based Costing
Reporting

Expense Management

Expense Management Overview
Expense Management Setup
Group and Employee Profiles
Expense Reports

Job Cost: Advanced Job Forecasting

Advanced Job Forecasting Overview
Formulas and Methods of Computation Setup
Build a Job Forecast

Lease Accounting

Lease Accounting Overview
Lease Accounting Setup
Lease Accounting AAIs Setup
Lease Accounting Bill Code Setup
Create an Asset Master Record in Lease Accounting
Create a Unit Master Record in Lease Accounting
Create and Review a Property Lease
Create and Review a Non-Property Lease
Enter Lease Clause Information
Enter Manual Billing
Review and Post Manual Billing
Review and Post Manual Billing
Create, Review, and Delete an Amortization Schedule
Create and Review Commencement Journal Entries

Lease Accounting – Contd.

Create, Review, and Post End of Month Balance Sheet Journal Entries
Delete or Void a Lease Accounting Batch
Change a Lease Term
Remeasure and Post a Lease
Enter a Lease Termination
Generate a Termination Entry
Review Lease Accounting Inquiries
Run Lease Accounting Reports
Generate Recurring Billing

Joint Venture Management

Joint Venture Overview
Address Book – Supplier Master
Entering Joint Venture Master Records
Joint Venture Legal Entities
Create and Approve Approval Lists
Entering AAIs for Joint Venture Management
Distributable Accounts for Joint Ventures
Create a Division of Interest
Distribution Ledger Records
Business Unit Attributes
Account Groups
Overhead Rules
Set Operational Status
Cash Call Processing
Assign Draw Create Journal Entries Program
Distribution Transaction Processing Reports
Reviewing and Recalculating Overhead Amounts
Process Overhead Calculation and Journal Entries
Create Journal Entry and Voucher Transactions
Joint Venture Distribution Documents
Generate Distribution Ledgers Program
Review Account Distribution Summary and Detail
Joint Venture Inquiries
Joint Venture Hierarchy

Procurement

Procurement Overview
Order Activity Rules
Procurement AAIs
Supplier Information
Supplier Item
Supplier Templates
Line Types
Requisitions
Quotes
Blanket Orders
Enter Purchase Order
Purchase Order Generator
Approvals
Purchase Order Printing
Enter Subcontract Purchase Orders
Change Order Process
